

# Curbs on B'desh Imports to Boost India's Textiles Sector

Jayashree Bhosale

**Pune:** India's ban on imports from Bangladesh through the landports could generate an additional business of more than ₹1,000 crore for the domestic textile industry, said industry experts. However, certain branded garments may see some supply issues in the winter season, which could raise prices of items like T-shirts and denim 2-3%.

The director general of foreign trade (DGFT) in a notification on Saturday banned imports of garments and several other products from Bangladesh through land routes, but allowed them to be shipped in via Kolkata and Nhava Sheva ports. The local industry has been demanding restrictions on imports, concerned about a double-digit growth in textile imports from Bangladesh due to zero import duty.

The move is also expected to curb the back-door imports of Chinese fabric, which otherwise attracts 20% import duty. The trade and industry unanimously think that Bangladesh will lose more than India due to change in the import policy.

"India is not going to lose much. It will be difficult for Bangladesh to import by sea route through containers over the land route, which took a couple of days," said Bimal Bengani, chairman (eastern region) at Federation of Indian Export Organisations (FIEO).

## Thread Count

India has imposed restrictions on imports from Bangladesh

Ready-made garments to be imported only via Nhava Sheva & Kolkata seaports

Imports not allowed through land ports

Fruit/Fruit flavoured and carbonated Drinks

Processed food items

Cotton and cotton yarn waste

Plastic and PVC finished goods, except input for own industries

Wooden furniture

India's estimated annual import of garments from Bangladesh

₹6,000 cr

**ROOST LOCAL MANUFACTURING**

The ban on land route imports from Bangladesh may boost local manufacturing, industry insiders said.

"We were importing garments worth ₹6,000 crore annually from Bangladesh. We can now expect imports worth ₹1,000-2,000 crore to be replaced with Indian manufacturing," said Sanjay K Jain, chairman of National Textile

Committee, Indian Chamber of Commerce (ICC).

Indian companies have been importing woven and knitted apparel from Bangladesh due to the zero-duty advantage.

"With this move (ban on imports via land routes), the reduction in imports will help strengthen domestic production and support local manufacturers," said Prabhu Dharmodharam, convener of Indian Textilepreneurs Federation, which represents the entire value chain of the textile industry.

According to industry estimates, India meets between 12% of its apparel consumption through imports, while Bangladesh accounts for about 35% of total garment imports in the country.

"This move would also reduce the backdoor entry of Chinese fabrics into India (without duty) that were getting converted in Bangladesh and being sent to India duty free," Jain said.

**SUPPLY DISRUPTION**

All the leading Indian brands as well as the global brands present in India source between 20% and 60% garments from Bangladesh, according to industry estimates.

The supply chains of these brands and many MSME units are expected to be disturbed in the short term.

"Buyers will be impacted as temporarily their supply chain will be disrupted and would have higher cost and lead time," Jain said.

# The New Conditions

From Page 1

India also pointed out to the IMF that Pakistan has had disbursements from it in 28 of the 35 years since 1989. In the last five years, there have been four IMF programmes to support it.

If the previous programmes had succeeded in putting in place a sound macroeconomic policy environment, India stressed, Pakistan would not have approached the fund for yet another bailout programme. New Delhi has also underscored the "oversized" role of the Pakistani army in the economic affairs there.

The new conditions imposed by the IMF on Pakistan, the la-

test report showed, include the parliamentary approval of a tight \$62.3 billion (PKR 17.6 trillion) budget, a hike in the debt servicing surcharge on electricity bills and lifting curbs on imports of used cars older than three years. The move would reportedly raise the number of conditions to 50.

The report said tension between Pakistan and India has risen significantly since the April 22 attacks (in Pahalgam) but the market reaction in Pakistan so far "has been modest with the stock market retaining most of its recent gains and spreads widening moderately"

India launched Operation Sindoor against terror infrastructure in Pakistan early on May 7 to retaliate against the terror attack that killed 26 people. On May 10, both the countries reached an agreement to halt operations against each other.

A new condition has been imposed on Pakistan's provinces where the four federating units will implement the new agriculture income tax laws through a comprehensive plan. The deadline for this is June.

The Pakistani government will also have to publish a governance action plan based on the recommendations of the Governance Diagnostic Assessment by the IMF. This report will identify reform measures to address critical governance vulnerabilities.

# ENIL Revenue Rises 5% to ₹158 cr in March Quarter

Our Bureau

**Mumbai:** Entertainment Network India (ENIL), the rebranded TV channel Radio Mirchi, reported consolidated revenue of ₹158 crore in Q4 FY25, marking a 5% year-on-year growth. Domestic revenue came in at ₹55 crore, up 2.5% from the year-ago period. The increase was led by contributions from Non-FCI (free commercial time) formats and digital business, while the core FCI segment was weighed down by a high base effect from government election advertising in the previous year.

For the full fiscal year, domestic revenues rose 9.4% to ₹528 crore, with consolidated revenues at ₹644 crore. Earnings before interest, taxes, depreciation, and amortisation (excluding digital) for the quarter stood at ₹74 crore, a 3.4% improvement over Q4 FY24, with margins at 27.5% versus

27% a year ago. PAT (excluding digital) rose 21% to ₹24.4 crore. ENIL's digital business continued to expand, supported by the revamped Gaana platform. Digital revenues for the year reached ₹76 crore, accounting for 28% of radio revenues, compared to ₹47 crore in FY24. Digital investments declined 15% sequentially in the March quarter, in line with a continued

reduction in quarterly spends. The international business reported revenue of ₹19.2 crore in FY25, generating a positive EBITDA. ENIL CEO Yash Mehrotra said, "Our Non-FCI revenues grew by 44.8% in Q4 and over 20% for the full year, supported by a vibrant mix of events, IPs, and brand solutions. On the digital front, Gaana's new version has shown strong subscriber traction and pricing acceptability, while our spend efficiency continues to improve."
