Commenting on the Results, Mr. Shilpan Patel, Chairman and Managing Director said, - “We are pleased to announce the performance of Arrow Greentech for the Q1 FY26. For the Quarter, we have registered a revenue of Rs. 416 Millions. EBITDA stood at Rs. 142 million, with a margin of 34.2%. Profit After Tax was Rs. 109 million, with margins of 25.1%. While our continued focus on operational efficiency delivered incremental gains in profitability, the quarter was characterized by relatively softer revenue and margin performance.

We remain mindful of the evolving global landscape, which continues to be shaped by geopolitical tensions, supply chain challenges, and broader macroeconomic headwinds. It is pertinent to note that at present moment there are negligible exports to USA, while our exports to Brazil have gone up as far as green product are concerned. In this context, our diversified product portfolio, agile operations, and disciplined financial approach provide resilience and flexibility to navigate uncertainty while pursuing growth opportunities across domestic and international markets.

Our strategic focus continues to center on high-tech security products and innovative solutions aligned with the Atma Nirbhar Bharat initiative. This not only reinforces our presence in the domestic market but also unlocks new avenues for export-led growth. The Green Product business segment continued to demonstrate steady growth in Q1 FY26, driven by increasing sales for sustainable solutions and the company's ongoing commitment to eco-conscious innovation. This remains a core area of focus for the future, aligning with our long-term vision of sustainability.

Looking ahead, we are committed to evolving our product portfolio in line with industry trends and customer needs. Our strategy emphasizes targeted innovation, advanced product development, and securing key intellectual property. Backed by robust R&D capabilities and a dedicated team, we are well-positioned to deliver enduring value to all stakeholders.”
